Estos errores son por un reproductor de música que estoy intentando implementar en la página del Trivial, es algo que estoy preparando fuera de lo que es la entrega actual pero como funciona actualmente he decidido dejarlo, así de paso puede que me ilumines sobre alguna forma de conseguirlo cuando lo veas ya que no lo consigo implementar con yo lo quiero, que es con el

selector que tengo pero sin esos errores. Por lo demás creo que he solucionado todos los errores de la entrega anterior, un saludo!

*Algunos animes están sin completar pues todavía quiero añadir muchos más y conseguir imágenes de calidad y poner todo el contenido de los episodios pero ya no hay enlaces rotos.
